## Super Low Noise HEMT Preamplifier for DX and EME

#### Description

For many years, our super low noise microwave preamplifier has been used very successful. Many results of Ham Radio Contests proof that! Due to a extremely low noise figure the preamplifier is ideal for tropo DX, EME (earth moon earth operation) and for receiving satellites.

### **Features**

- Extremely low noise figure
- Good input return loss (low VSWR)
- Uncoditionally stable no parasitic oscillations in case of poor antenna match
- Professional milled aluminium case
- Small mechanical dimensions
- Male connector at the input for direct connection to antenna or coaxial relay

## Important notes

- Amplifier does not contain a coaxial relay!
- Maximum input power 1 mW
